CORE VALUES

MISSION

At SPECTOR, we are proud to carry on the legacy of a family-owned business. For generations, our family has been dedicated to delivering creative solutions that make a lasting impact. Today, we continue that tradition by working closely with our clients to develop one-of-a-kind solutions that utilize AI interactive technologies, traditional media, and any other medium necessary.

We are honored to partner with both large national and international clients as well as small local brands, and we take pride in being an integral part of their success. Along the way, we often become part of our clients' inner circle, forming lasting relationships built on trust and mutual respect. As we look to the future, we are always on the lookout for other like-minded, hardworking, and talented individuals who share our mission.

CULTURE

From the very beginning, our company has been built on the idea of culture. We believe that it's not just about what we do, but who we are that makes us successful. We strive to create an environment where people can come together to achieve great things.

We invest in our team, so that they can be their best selves and be rewarded for their hard work. This has led to a strong and passionate team that is willing to go above and beyond for our clients and collaborators. Culture is at the core of everything we do, and it's what sets us apart from the rest. We believe that it's what makes us successful.

Thanks to our culture, we are able to focus on our multi-faceted businesses and serve our clients and collaborators to the best of our ability. We don't stop until we reach their goals.
